Dear Hiring Manager,

I'm writing to express my interest in the Wordpress Developer at your company. My name is David Bastian, a multidisciplinary designer and developer with an insatiable hunger for creating unique and innovative digital experiences. With over 10 years of experience in the industry, I've honed my skills in various disciplines such as branding, illustration, 3D, animation, AR/VR, development, iconography, photography, typography and creative direction. I bring a unique perspective, having spent my formative years in Chile and New Zealand and currently based in The Netherlands, which has exposed me to different cultures and ways of thinking, and has made me a more adaptable and creative professional.

My main objective is always to convey the message with the biggest impact and I believe that a deep understanding of the social and cultural environment, as well as comprehension of art history, composition, and color theory are equally important. This is why I always strive to create pieces that are not just aesthetically pleasing, but also meaningful.

I'm especially passionate about WordPress development and have been developing and designing themes for more than 10 years. My proficiency in Vanilla Javascript and PHP, along with my understanding of popular plugins such as ACF, WP REST API, Admin Menu, and Yoast, makes me confident that I can bring value to your team and contribute to the success of your projects.

I would like to work remotely on a freelance basis from The Netherlands, which allows me to bring my skills and experience to your team without the need for relocation or additional expenses. I'm excited about the opportunity to work with a company that values creativity and innovation, and I believe that my skills, experience, and passion will make me a valuable addition to your team. I would love to discuss the opportunity further, and I look forward to hearing from you soon.

Sincerely,
David Bastian
